

World Café Workshop & Action Planning Integrated Offender Management IOM action plan

Overview

Creative, collaborative methods such as ‘world café’ workshops are more popular than ever for action planning.

The world café format relies on rotation of the attendees between groups at regular intervals, to stimulate new, high energy discussion.

St Helens Safer Communities team were keen to use four rounds of questions - progressing from a ‘strengths and weaknesses’ assessment, exploring ideas for change, and finishing with priority setting.

Client

St Helens
Community Safety
Partnership

Outputs

- Action Plan report
- Workshop facilitation
- Presentation template

Location

St Helens, UK

“A sharp, challenging, well-researched, independent evaluator and facilitator. Added-value all round”

Safer Communities
Business Manager

“Succinct analysis & practical actions / recommendations for us to take forward”

Safer Communities
Business Manager

Aim & objectives

IOM St Helens has a healthy legacy of improvement planning exercises. The June 2013 workshop sought to re-examine the processes, working practices and relationships which underpin delivery of IOM, with the primary objectives being:

- To make effective connections across IOM partner organisations, to share experience and learning.
- To emphasise actions and recommendations for ways of working as a group.

Added value & outcomes

- Summary Report of findings from each of the sessions, with common themes highlighted.
- 15 action options presented, with reference to findings that support that action.
- Legacy of improvement planning workshops summarised in Appendices of Summary Report, for comparison over time.
