RASASC Specialist Localised Support

Our approach to funding - to date

- Recognised Quality Service
- Strong relationships with commissioners & partner agencies
- Maintain our identity as a specialist provider
- Respond quickly to opportunities – tender ready
- External Consultation & Audit

Our approach to funding - in 2016 & beyond

- Maintain high quality provision
- Targeted approach to fundraising
- Respond and develop to meet requirements of commissioners – the service needs to be deliverable in terms of contracts
- Business planning involving stakeholders
- Expand funding sources
- Trust funds; public fundraising; statutory contracts; partnership working

How collaboration can help secure further income - & lessons learnt

- Working with partners to recognise when a collaborative approach to securing funds would be beneficial
- Example – Merseyside PCC commission RASASC and Merseyside RASA to provide aftercare services – this is effective due to the close working relationship we have with RASA and through good communication with the commissioner
